MEMORANDUM FOR: Document Officer, Historical Staff  
REFERENCE : Attached Pages of Personnel Statistics

25X1A9a

1. These pages were prepared in the Management Staff under the supervision of the Management Officer, [REDACTED] during 1948 and 1949. The statistical collection and analysis was done by [REDACTED] and the graphics layout by [REDACTED].

2. The total project included the statistical portrayal of Agency activity for the exclusive use of the Director. Those pages of pertinence to a particular organizational entity were photostated and forwarded back for internal use. That is what these pages represent.

3. It is impossible to judge the validity of the statistics shown. As a member of the Management Staff at that time and sharing office space with [REDACTED] and [REDACTED] I remember discussions on the elusiveness of personnel statistics in a dynamic, growing organization such as CIA then was, housing both vouchered and unvouchered personnel. It can be said that these were the best figures then obtainable and in certain instances such as the T/O figures, which were developed in the Management Staff, they are wholly accurate. To the best of my recollection this statistical summary project foundered in late 1949 or early 1950.
